Louise Parker has spent 20 years learning, researching, testing and improving The Louise Parker Method. Her clients include CEOs and celebrities too A-list to name, as well as figures from high

society and royal family members from around the world. To date, over 11,000 people in more than 28 countries have completed a Louise Parker programme. Many are willing to pay thousands of pounds for the unique plan. Louise now runs the Louise Parker company with her husband Paul, who left his job 4 years ago to help keep up with the ever-increasing demand for The Louise Parker Method. They live in London with their 3 daughters.

Definitely a five-star book! Louise Parker's writing is as clear and easy as her Method. This is truly a lifestyle to be your best. Her inner/outer circle way of dealing with holidays, celebrations, etc., is a revelation. The recipes look yummy and are easy to prepare. Very motivating-can't wait to get started!

very encouraging!!!

yees

Just got this so I'm still working through the details. However, I don't like that it doesn't provide the nutritional info against any of the recipes. Perhaps this is coming in the recipe book coming out separately later this year? I know we aren't to be "counting" calories but I'd still like to understand what they are. It gives me a reference point and allows me to mix and match better. I'd also have liked a "pull-out" like section to use on a day to day basis as a reminder etc. Lastly, I think it should allow that if you buy the book you get the kindle version free or vice versa so readers can get the most out of the contents and more usability!

Great book plan really works

Good Book on health and diet.

It's not a very compelling book. It has recipes and exercises you should follow and that's fine however you cannot expect to be limited to that selection for the rest of your life. The book should explain better the logic so you can apply it alone in the future, as you grow and mature the diet process.

I've tried many different programs and love that this one includes real food and manageable

workouts. Just need to find those 10,000 steps per day!
