## Customer Reviews

Vocabulary Workshop ã ©2005 Student Edition Level Green, Grade 3Vocabulary Workshop has proven a highly successful tool for guiding systematic vocabulary growth and developing vocabulary skills for more than five decades.

This book is completely at level , even slightly harder than the school classic one.The construction of exercises to review and learn the vocab. words is the most intelligent than I have seen over the past 6 years,You definitely help your child learn words his level and use them after in his written work.Also the review of chapters combining all the words are excellent to review the past lessons .I wish it was longer to last a whole year and that it would be more use in the public schools.

great book.
