Gerontological Nurse Practitioner Certification Review

Synopsis

[This book] is an important reference for nurses seeking to take the certification exam to validate their own practice. The practice of nursing over the next decades will demand age-specific knowledge for people across the life span. Nurses need to develop expertise in the area of geriatrics and have that expertise validated through certification. Tara A. Cortes, PhD, RN, FAANThe Hartford Institute for Geriatric Nursing(From the Foreword) Nurse practitioners have long required a comprehensive certification review book for the American Nurses Credentialing Center (ANCC) and the American Academy of Nurse Practitioners Gerontological Nurse Practitioner (GNP) certification examinations. Gerontological Nurse Practitioner Certification Review is the first book to provide a thorough review of test content to effectively prepare nurses to successfully pass the GNP certification exam. With over 200 practice questions culled from the real ANCC test outline, this is the only book nurse practitioners need to pass the ANCC exam. Challenging and reflective questions and answers are provided at the end of each chapter for topic review, with a final test offered at the end of the book. By providing students the ability to take the "mock test," this book instills confidence, preparing students for the actual certification exam. Gerontological Nurse Practitioner Certification Review contains: Guidelines on question dissection and analysis, as well as over 200 questions culled from the real ANCC test outline A comprehensive review of health promotion and disease prevention, assessment of acute and chronic illness, clinical management and pharmacological/nonpharmacological interventions, professional role and policy issues, and more An examination of the nurse practitioner and patient relationship Additionally, this book helps students in gerontological nurse practitioner, family nurse practitioner, and adult nurse practitioner programs with course program examinations that refer to older adults.

Meredith Wallace Kazer, PhD, APRN, A/GNP-BC, is Associate Professor, Fairfield University, School of Nursing. Dr. Kazer is a well-known Springer author, and her books include the previous edition of Encyclopedia of Nursing Research (2005), Prostate Cancer Nursing Assessment Management and Care (2002), an AJN Book of the Year Award winner; Essentials of Gerontological Nursing (2007); ,Gerontological Nurse Certification Review (2008), and the Gerontological NP Certification Review. In 2002 she was Associate Editor, The Geriatric Nursing Research Digest. She is a recipient of the ENRS/John A. Hartford Foundation investigator award. Dr. Kazer is an adult NP

and currently practices in primary care with a focus on chronic illness in the elderly. ||Sheila Grossman, PhD, FNP-BC, APRN, is a Professor of Nursing and Coordinator of the Family Nurse Practitioner Track at Fairfield University School of Nursing. She received a BS in nursing from the University of Connecticut, her MS as a Respiratory Clinical Nurse Specialist from the University of Massachusetts/Amherst, a postmasters degree as a Family Nurse Practitioner from Fairfield University, and her PhD from the University of Connecticut. She has worked many years as a clinician on a variety of medical, surgical, and critical care units and presently practices as a Family Nurse Practitioner in a primary care clinic. She is the coauthor of *The New Leadership Challenge: Creating A Preferred Future for Nursing*, which is in its third edition (2009), has received an AJN Book of the Year Award for *Mentoring in Nursing: A Dynamic and Collaborative Process* (2007), and coauthored *Gerontological Nurse Certification Review* in 2008. She is the author of multiple chapters and journal articles on leadership, mentoring, gerontology, adult health, and palliative care. Her research interests focus on symptom management in palliative care, leadership, pedagogy, cultural competence, and adult patient outcome studies. She is active in Sigma Theta Tau International Honor Society, American Association of Critical Care Nurses, National Organization of Nurse Practitioner Faculty, American College of Nurse Practitioners, and is a certified End of Life Nursing Education Consortium Educator and a Commission on Collegiate Nursing Education Accreditation Site Visitor. She is the winner of the 2009 Josephine Dolan Award for Outstanding Contributions to Nursing Education sponsored by the CT Nurses Association.

There is not a lot out there for GNP certification review as compared to FNP. I purchased this to review for my GNP exam in October. I did not find it really helpful. There is also another site which advertises GNP review tests - do not waste your money on this either. Neither of these just mentioned were helpful preparation for the actual exam. I also took the ANCC review course (it is an 8-week course, 1 day/week, via phone, sponsored by ANCC). Though costly, I found this much more helpful. Included with this course is the ANCC GNP certification review text. If you are planning to take the GNP through ANCC - take the course or for a less costly route - purchase this text. PS I passed!! YEA!

Very disappointing review manual. It is 200 and some pages however the book is the size of a slightly large paperback. Don't waste your money on this, your not going to find any significant information that cannot be found in a general review book. This very tiny book has only 165 review questions. The content is so superficial it hardly seems like a book written for nurse practitioners.

This review book hit all of the needed areas of study. The literature is clear concise and easily comprehended. This is a must have study tool!!

I gave four stars instead of five because the book took an extra week for me to receive it. The book is really good, just wished the author would have organized the book as a review book with bullets instead of paragraphs. This book is really good for studying for the Geriatric NP exam.

Great price! Arrived on time!

great

good

There are so many typos and so much incorrect material in this book that I am afraid I can't use it as a credible study aid. I wish I could return it, but I've had it longer than 30 days.
