Customer Reviews

First time visitors are spared the tsunami of information and given a foundation to create a itinerary based on solid tips and suggestions for prioritizing touring and an array of eating suggestions without the mind boggling lists peppered with wit and common sense. A great read and smart addition to my reference material. Best "useful" source to date.

I haven't been to Rome yet but after reading this book, I am ready too go. Easy to read, easy to use, I would buy their other CLUED IN books as well.

Makes you want to head out and book your trip! Never been to this country and the words turn into images that are truly enticing. Love the gorgeous pics as well! Clued in Paris and Venice are also good reads. I have never been to any of these places but now can imagine what to expect.

Saved my butt while traveling solo. I spent a week in Rome and loved every moment. This guide showed me all the best places to see and got me into the best meal of my trip. Get it and book early.

This is the third book I have read in the series. And another great read. I love the pictures and perfect descriptions. I feel like I visited Rome for the third time. Ciao bella.

Very informative. I've been to Rome a few times, but my daughter is going there on her honeymoon. I definitely want her to read this.

This book was very helpful! It helped us navigate this beautiful place and save money! We also loved the restaurant suggestions.

Really cuts to the chase. Though you might want to think through the Roma Pass question, especially with kids.
