# Survivors: True Stories Of Children In The Holocaust

## Synopsis

Gripping and inspiring, these true stories of bravery, terror, and hope chronicle nine different children's experiences during the Holocaust. These are the true-life accounts of nine Jewish boys and girls whose lives spiraled into danger and fear as the Holocaust overtook Europe. In a time of great horror, these children each found a way to make it through the nightmare of war. Some made daring escapes into the unknown, others disguised their true identities, and many witnessed unimaginable horrors. But what they all shared was the unshakable belief in-- and hope for-- survival. Their legacy of courage in the face of hatred will move you, captivate you, and, ultimately, inspire you.

Allan Zullo is an American non-fiction writer. He is the author or co-author of more than eighty paperbacks for adults and children.

I always love these true stories as sad and disturbing as they are. We should never forget. And you can't make this stuff up. We should always remember those who died and/or suffered too much, too young, for no Godly reason.

I was glad to find this book. I look for true stories all the time about the Holocaust and there aren't aren't that many out there.

ANYtime we can read about the Holocaust and how it came to be, is a GOOD thing! Something we need to seriously think about as head into the very shaky future being 'set up' by our current administration, here in America.

Really enjoyed the book. It was very interesting individual stories about those that survived the holocaust from their point of view. It's amazing to me that they even survived the terrors! Worth reading.

the truth of hatred to be so brutal to even children is shocking but necessary to know to what depths of deparvity evil can go so swe do our part to stop abuse whether for our nation, or for the entire world or individually. b y know this suffering endured by so many innocent people especially little childfren we can claim empathy and follow that by brave actions to protect the good qualities of the human being.

Very sad stories, but the kind we should never forget.

It's necessary to be reminded of this monstrous history to appreciate all our blessings.

I thought all the children were murdered during the Holocaust, but I was greatly surprised by this story. They were little but mighty throughout their stories. I was more than glad they came forward to reveal their story that most of us did not know. I was born in '39, but I know I would not have lived thru such an ordeal as theirs. Thank you to all for bringing your stories forward. It was a wake up call for me. There should be more storiessuch as these to wake up the different peoples of the world.
