Rick Riordan (www.rickriordan.com) is the author of the #1 New York Times best-selling Percy Jackson and the Olympians series, as well as the #1 best-selling The Heroes of Olympus series, and The Kane Chronicles series. His previous novels for adults include the hugely popular Tres Navarre series, winner of the top three awards in the mystery genre. He lives in Boston, Massachusetts with his wife and two sons.

According to my 12 year old daughter these books are even more exciting than the first series "if that is even possible"! Bought the 4th book separately and then went online to order the 5th book from the UK since it is not available in the USA until Oct. 7th. (still waiting on the 5th since June 3rd but must admit the expected date listed was July 20th). She devoured each very large book within a day and has since been re-reading them while waiting for the 5th book! Not sure what I am going to do after she reads that one! Apparently these books are addictive :-)

My 9 year old son absolutely loves these books. He's quite a good reader for his age and it's difficult to find things that are both appropriate and interesting. The Difficulty is that he wants to read books that have inappropriate subject matter because books that are written for his age are too easy and can read them in a little over an hour. These books are great, as are the other series by this author. They are fun, they're interesting, they aren't scary and they are appropriate content for any child or adult who wants to read them. I say adult because they are a fun read for anyone! The author has just released two books for two new series and I'm so excited for these as well. Highly recommended

The Heroes of Olympus is the continuation of the wonderful Percy Jackson series, a must-read for fantasy & mythology fans of all ages. In the Heroes of Olympus, we are reacquainted with many beloved characters from the Greek camp in the first series and also introduced to many exciting new characters from the Roman camp of demigods - a previously unknown camp that exists far away from the Greek camp we came to know and love in the first Percy Jackson books. According to the prophecy at the end of The Last Olympian, the Roman and the Greek camps must overcome an age-old, mysterious rivalry and work together alongside the Gods to defeat their greatest enemy ever - Gaea, mother earth herself. These books provide countless hours of entertainment and adventure, battles between brave heroes and terrible villains, many plot twists, and a few very big surprises. If you loved the first series, I guarantee you and your family will love the Heroes of Olympus. This 3-book kindle collection is a very good value for the price. I bought this set, then bought the last two books separately because the price was better than buying the entire 5-book set at once. Highly recommend for all ages!

Was a gift for my nephew. He loved it, & enjoyed the presentation of this gift set of books. He wants to eventually collect all of the titles by this author, so I thought going with something that was

visually appealing would make it look nice on the bookshelf. Glad I went with this boxed set for him! It was beautiful artwork in person on the cardboard housing.

I bought this set for my 12yr old son because he is a big fan of Rick Riordan and this type of books. He loved the Percy Jackson books so wanted this set when I saw it. He had the first book from the school library and was bugging me to find the next book in the series. Getting a box set for him was a no brainer. He is in heaven with the books. It is hard to find things he likes to read but when he hits on something he devours it and cant get enough. Very happy camper and happy mom. Well worth the price to keep him reading!!

They have been every bit as exciting as the first series, which I read a couple times as they are a quick relaxing way to past time, like watching a cherish movie.~ ~ Percy Jackson and the Olympians 5 Book Paperback Boxed Set (new covers w/poster) (Percy Jackson & the Olympians)~ ~ (And they really just take a bit longer than watching movie to read but is just as pleasant.)This new series is complete page turner, engaging interesting characters, a compelling plot, and a great read all around regardless of your age. I read the whole three books in a couple days, during bus rides and breaks.The set arrived in perfect condition and despite being paperback they are good quality paper and covers (not those transparent flimsy sheets some paperbacks come with), I believe the can withstand quite a few re-reads and moving around in my backpack.I am currently waiting for the other two to arrive I've heard they aren't as good but either way I want to know how it all works out.

First of all, i love Rick Riordan and the Percy Jackson series and i was really worried with the addition of new characters but after i got past the first book i was hooked, read the entire thing in a week. The order came quickly too so i appreciate that because i didn't have to go through a withdrawl from finishing the first series. Juat for other buyers, these series' books are longer than the Percy Jackson books. Just so you know.

My 9 year old read and loved the Percy Jackson series. I then read it b/c he wanted to talk about it all the time! We immediately moved into the Olympus series- it's fun to continue with the characters and still meet new ones, but in my opinion, it's a bit predictable. My son has still loved it. My disclaimer as a parent- the characters are older in this series. I read ahead and talked to my son about a few of the relationships and the predicaments the characters faced (especially in books 4

and 5). It's sometimes hard to find books that are age appropriate, yet still challenging and interesting for my advanced reader.
