# The Kids' Book Of Questions

## Synopsis

Kids love to be asked questions almost as much as they love to ask them. And asking is importantâ "parents know the value of having meaningful conversations with their kids, especially as family time is under continuous assault from gadgets and devices. Now the book that solves those needs is backâ "announcing a fresh new edition of The Kidsâ ™ Book of Questions. Including subjects like the Internet, school violence, and climate change, the book remains a timeless treasure. Here is a collection of questions designed to challenge, entertain, provoke, and expand young minds. These are the questions that let kids discover how they feel; let people know what they think; raise issues that everyone loves to discuss. Gregory Stock, author of the original #1 bestselling Book of Questions, took his question-asking ways into schools and came back with over 200 questions, including Thorny dilemmas: Would you rather have a job you didnâ ™t like that paid a lot or a job you loved that paid just enough to get by? Embarrassing challenges: Would you kiss someone in front of your whole class for \$250? Provocative ideas: What things do you think your parents do just to set an example for you? Intriguing fantasies: If you could text any famous person and be sure theyâ ™d read and answer your text, who would you write to and what would you say? There is only one requirement: Give an honest answer. Then be amazed to see where one little question leads.

ASK AWAY! Ask your best friend. Ask your teacher. Ask your mom and dad. Most of all, ask yourself. **THE KIDS' BOOK OF QUESTIONS** makes it easy to ask hard questions and fun to answer them: questions about right and wrong, about why parents act the way they do, about what you'd do for money, even about ruling the world. Discover how you really feel, let people know what you think, or raise an issue you've always wanted to discuss—you'll be amazed to find how far one little question can lead you. Before he began visiting schools and asking kids questions, Gregory Stock challenged older readers with the #1 bestselling **THE BOOK OF QUESTIONS**.

Gregory Stock is a biophysicist, bestselling author, biotech entrepreneur, and the former director of the Program on Medicine, Technology, and Society at UCLA's School of Medicine. His interests lie in the scientific and evolutionary as well as ethical, social, and political implications of today's revolutions in the life sciences and in information technology and computers. He lives in Houston, Texas.

This book is great! I remembered reading a similar version when I was little (I'm not sure if it was the same book). My kids (6 and 8) love it! They will pick it up every once in a while and ask me a question. Many of the questions have to do with lying, friendship, and other values. It's great to answer them and be able to teach my kids a little lesson when I answer. I'll answer and tell them when I thought that way and it's a great teachable moment. It gives me a chance to teach them about right and wrong in a fun way!

I had this book many, many years ago; someone borrowed and never returned. I found this updated version has more questions for older "kids," teens in fact. I wish there were more questions for 5-10 year olds. Still fun though--just takes more effort to find appropriate questions than I remember.

Great book that makes for some interesting table conversations! Gets kids and adults alike, thinking outside the box and thinking about questions that may not have necessarily came up in every day conversation. We enjoy using is for table topics and the kids ask us each night if we can read a question or two to discuss.

I'm a grandma of 6, They range in age from 8-15. I like to take them out to dinner on an individual basis and I take this book with me. When the conversation has a lull I get the book out and read a

question. Their answers are amazingly thoughtful. The questions have made for wonderful discussions.

Enjoyable! I use these questions for journal prompts with my middle school students, and they are great. I like that they are geared towards younger minds. It's great.

I used this for my fifth grade students for morning meeting. They would beg me to do another question everyday.

Completely wonderful.

My kid loves this book. It's great around dinner time for conversation starters, especially when we have other kids over. Would make a great teacher gift too.
