Marked (The Marked Book 1)

Synopsis

'There's something terribly wrong with his eyes. My mind struggles to rationalize what I'm seeing and I tell myself that it's just a trick of the light, or that maybe I'm hallucinating due to the crushing amount of fear I'm feeling, because when I look at them, all I see is darkness. Deep dark voids that threaten to swallow me whole.' When 17 year old Hanna Harper agrees to see a local band at The Iron Knife Club with her two best friends, she has no idea her life is about to change forever and that everything she thought was impossible...isn't. Marked with a mystical symbol by a dying boy, she's thrust into a world she never imagined existed where her eyes are opened to the reality that fallen angels are very real, and very dangerous. And with just one look from their soulless black eyes, they can take everything from you. And now, because of the symbol and the secret it contains, a secret she must protect at all costs, those black eyes have set their sights on her.

Customer Reviews

Marked drew me in from the start with it's unique plot, interesting and diverse characters, and a

world that was so easy to see through T.L.'s eyes that I could believe her world was actually real. The beginning begs an important question of who? and why? with the death of a character and the endangerment of another. And the ending provides these life-changing answers and so much more. Things are not what they seem and neither are the characters. Secrets, love, lust, jealousy, and trust all weave their way into this magic tale. I am definitely a fan of T.L. now and can't wait to continue this dangerous and romantic with the next book in the series!

I purchased "The Marked" on a whim, not having heard of the book or author before and I am so glad I did. It was a marathon read, I was unable to put it down. It's been awhile since a book had captivated me so completely. The Marked is an exciting journey, unique in its take on the supernatural genre, with believable, compelling characters and a really well written plot. I am only pausing long enough to highly recommend The Marked before I dive into The Fated. I can already tell this series will make its way on to my "All Time Faves" list. I wish this series didn't have to end...

Quite simply, this is an awesome novel. It's a suspenseful ride layered with brilliantly written characters. The surprises and twists keep the reader guessing. The protagonist in the story, Hanna is easy to root for. The author did a great job weaving vivid prose, putting the reader in a scene. This book is relatable to both the teen and adult reader. Marvelous job of writing. I left wanting to read more from this author. So next I will read the second book in her series, Fated.

marked by a dying boy at a nightclub Hanna's world spirals out of control, afraid she is starting to go mad she meets others with the same ability as her, she is thrust headlong into a world she should know nothing of with danger lurking around every corner

Once I started reading this book I couldn't stop. Wow I was hooked after reading five pages into the book.. So I took a quick break from reading to buy the rest of the books in the series.. I can't wait to see what happens next..

Uncoordinated teen who feels she's not perfect but lives her life the way it's dealt. Things get complicated when you add in this new attraction to her best friend. And ruining friendship that was one sided.

This book is a good story. The descriptions of action are well written. The characters are very

sympathetic. If only the errors in grammar had been corrected before publishing I would have given 5 stars.

I loved this one a lot because of the suspense and the relationship with the main character and the angel. I know it is just fiction. It was really fast paced, and full of surprises.
