Swami Muktananda introduced the Siddha Yoga path all over the world, creating what he called a "meditation revolution." He is the author of Play of Consciousness, his spiritual autobiography.

This is a compelling book. I knew of the book before I bought it. Before I began the text I read all the forward information and found that quite helpful to meet the book where it is. I find this a book that I read slowly and contemplate it paragraph by paragraph. I will probably keep this book on my nightstand for years to come.

NOTHING EXISTS THAT IS NOT SHIVA includes jewels of wisdom from Shiva Sutra, Gurugita, Vijñanabhairava and few other texts with Muktananda's enlightening commentaries. Muktananda keeps on reminding the reader that Shiva is everywhere present and that a spiritual aspirant has to keep this always in his awareness. Here is an example related to working successfully with mantras: "The one who repeats the mantra is Shiva, the mantra Namah Shivaya is Shiva, and the Lord of the mantra - its goal - is Shiva. The secret of the realization of a mantra lies in repeating it,

having identified oneself completely with Shiva. In the Svachchanda Tantra, Lord Shiva says: 'O Goddess, only he who knows that Shiva is within himself as himself realizes the goal of the mantra.' "The book is to be read, re-read, savored, absorbed and, of course, applied. As I read it once I found joy bubbling within me. I'll be reading it many more times.

This book is genuinely beautiful and moving. I have two copies. If you found the Swami Lakshman Joo or Jaideva Singh translations too academic to the detriment of the message and passion, you will be delighted with this book.

This book is composed of brief commentaries by Baba Muktananda of individual lines of various sacred texts as noted in the title. Sometimes it may only be a paragraph or two; sometimes a page. But I found this simple format and these brief explanations to be profoundly moving and enlightening. As I would read a commentary, and I would only read a few a day, I would find myself drawn naturally into a profound contemplative orientation towards my thoughts and actions and notions about myself and my life. It always felt very healing and as if unnecessary burdens were dissolving on the spot. I would at times be moved to tears of gratitude, to meditative silence, to joyful realizations. This book is indeed food for the heart, soul, and mind. It is alive with blessings. It is literally, not metaphorically alive, and if you relate to it with care and attention, you will find yourself in a sacred and precious relationship.
