Customer Reviews

The book contains every major song from the original broadway show, the movie, and the 1998 revival with Alan Cummings. It also includes the outtakes. I primarily bought the book for the outtakes and the songs from the original broadway musical. For it's completeness, I give it 5 stars. The standards are there, of course, but those songs appear in tons of compilations. I was more interested in songs like Good time Charlie and the Telephone Song. I'm always disappointed that vocal collections drop out everything but the hits of the show, and I was pleasantly surprised that this one didn't. I have an old copy of the Cabaret movie vocal selections book, and there's no comparison. This is the better book, hands down. However, I only played through it a few times, but didn't spend the time to compare with the score to see how much is a literal transcription versus a watered down version. Regardless, Maybe this Time is in a higher key than normal, which didn't

bother me, but that does mean that some of the keys are different.. One tiny complaint - if you want the German lyrics for "Tomorrow Belongs to Me," it's not there. However, my edition DOES contain I Don't Care Much.

I bought this because I wanted a vocal/piano arrangement of "Maybe This Time." The arrangement is poor and oversimplified. The piano part is merely chords and an echo of the vocal line. There are none of the cool piano filler motifs like in the recording. Sadface

This book is great because it features all the songs from Cabaret, and I mean literally all the songs including the bonus ones from the original broadway show cd which I was shocked to see.

Wish I had a piano to play and sing along to it all the time.

Great book.

Book was as expected. What a great show

Perfect gift for someone who loves the show and has seen it as many times as my son!

It's got everything for piano and vocal.
