Golden Treasures Of San Juan

Synopsis

Golden Treasures of the San Juan contains fabulous stories of lost mines, bullion, and valuable prospects of one of the most beautiful mountain areas of the United States. Many of the stories are based on the personal adventures of author Cornelius. When the Indian Mountain Lands (the San Juan) were ceded in 1874, the wild region was thrown open to prospectors seeking its gold and silver riches. Many prospects were valuable discoveries, yet were lost and became legendary mines. Further, the Spanish explorers had been through this area much earlier with their bullion, and their caches added to the legends of gold discovered or to be discovered. The authors of this book trace complete stories about these long-lost hoards.

Book Information

Paperback: 236 pages

Customer Reviews

Golden Treasures of the San Juan contains fabulous stories of lost mines, bullion, and valuable prospects of one of the most beautiful mountain areas of the United States. Many of the stories are based on the personal adventures of author Cornelius.

these are fun stories and I can't wait for summer to go treasure hunting! Its not really about finding the treasure, which probably does not exist, but the journey will be fun. Living very close to the areas in the book and being an avid rockhound the stories sparked my imagination and I will look at things differently when make my next journey into the mountains.

Great book & great price and service.

I'll tell you what, The day I find any of the lost Treasure, I'll jump up and down while professing that this book is the best ever!!Until than, It's a pretty good read.

Book was well worn, but still good reading.

The Pueblo Revolt of 1680—also known as Popé's Rebellion—was an uprising of most of the indigenous Pueblo people against the Spanish colonizers in the province of Santa Fe de Nuevo México, present day New Mexico.[1] The Pueblo Revolt killed 400 Spanish and drove the remaining 2,000 settlers out of the province. Twelve years later the Spanish returned and were able to reoccupy New Mexico with little opposition. The Indians went into the mountains and completely covered up all mines in the San Juan's. When the Spaniards were able to reenter the San Juans, they couldn't even find their own mines. They had to prospect and open new mines! The San Juans are full of lost mines and more. It takes seriously hard work to find them but it can be done. It takes a deep knowledge of the Spaniards and how they did things. The right people with the right stuff are finding them. Of all of the areas in the U.S. where the Spaniards dug gold, the San Juan's are the most promising.

Love reading this Colorado lost gold and treasure searching history. You can almost find the places where the maps show gold.
