3-2-1 Code It! (with Cengage EncoderPro.com Demo Printed Access Card)

Synopsis

NOTE: Ensure the entries are in the correct case as they are case sensitiveWhether you're a beginner or experienced professional, 3-2-1 CODE IT! 5E offers you the most complete, easy-to-use medical coding guide on the market. This best-selling book addresses the latest updates on ICD-9-CM, ICD-10-CM, ICD-10-PCS, CPT, and HCPCS Level II coding sets, conventions, and guidelines. The book's well-organized, intuitive approach begins with diagnosis coding before building on this foundation with more in-depth instruction on procedures and services. You'll find coverage of both ICD-9 and ICD-10 code sets as well as separate, thorough chapters on outpatient and inpatient coding. Extensive end-of-chapter practice, case studies, checklists and questions prepare you to earn coding credentials, while strategic career advancement tips provide helpful advice to achieve more. 3-2-1 CODE IT! 5E's extensive support package includes a workbook, a brand-new MindTap with a complete digital interactive learning experience, and Printed password for 59-day trial of optimum EncoderPro.com software to help you master the most current coding skills needed for success today.

Customer Reviews

Michelle A. Green, MPS, RHIA, FAHIMA, CPC, is an Adjunct Professor in the Health Information Technology Department at Mohawk Valley Community College, Utica, New York. She also teaches in the Health Information Management Department at Mount Wachusett Community College, Gardner, Massachusetts. Ms. Green held the position of SUNY Distinguished Teaching Professor in

the Physical and Life Sciences Department at the State University of New York, College of Technology, Alfred, from 1984 through 2016. An active member of the American Academy of Professional Coders (AAPC) and American Health Information Management Association (AHIMA), Ms. Green has been recognized both for her excellence in teaching and for her significant contributions to the Health Information Management profession. She has earned numerous awards, including the State University of New York Chancellor's Award for Excellence in Teaching, Alfred State College's Alumni Association Teacher of the Year, Who's Who Among America's Teachers, and the FORE Triumph Educator Award from the AHIMA. Ms. Green is a Registered Health Information Administrator (RHIA), a Fellow of the American Health Information Management Association (FAHIMA), and a Certified Procedural Coder (CPC). She earned a BS from Daemen College and an MPS degree from Alfred University. Ms. Green has authored three successful books related to coding and health information management.

This book has too much information that overlaps each other. In addition, the information for ICD 10 should be separate from the ICD 9 to make it easier to read. The explanations could be much shorter than what they are. I am also annoyed at the fact that the book gives you reviews and no answers to confirm you are doing the work correctly. What idiot puts a book together and not provide the answers for review? I will make sure to burn this book and the subsequent work book when I finish this class. If I did not require this class to obtain my degree I would drop it. This book is a joke. No one in my class likes this book and there are 25 of us!

Books in great condition. Format and content look good. No answers for practice coding questions OK if you are a student and have an instructor for answers and explanation but if you are doing a self study, you have no guidance.

Book uses a really complicated way to teach you, really disappointed that you don't get the answers unless you have a teachers book. Pretty difficult to understand and confusing.Exercises are not really well explained and while in school with teacher we found many mistakes including answers to exercisesBasically the whole title 3.2.1 does not go with the book, Not worth the price. I haven't been able to learn much from it.

Great for learning medical coding. Someone probably could use it to teach themselves coding.

Yes, it was the right item and it came just in time. I was most pleased.Ã Â ÂˆÂ•

Thanks

I bought this to use in addition to my text books for college in the Health Information Program. I'm due to graduate in March and this book helps reinforce a lot of information I've already learned as well as prepare for the RHIT exam. Good resource.

Full of information making my class time much more productive.
