Teenage girls often want sensitive answers to tricky questions about their skin, hair, makeup, and bodies. Well, Bobbi Brown's your woman! Beauty editor of the NBC Today show and coauthor with Annemarie Iverson of Bobbi Brown Beauty, Brown's hope is that teen girls will learn to recognize their own natural beauty and simply bring it out with makeup and healthy living. She specializes in the "makeunder," insisting that makeovers "tend to involve lots of makeup and a masking of who you really are." Teenage Beauty is "the ultimate beauty guide for young women. It takes the mystery out of all those confusing rituals so that you can figure out how to feel happier and more relaxed about your looks." Thirty chapters, packed with close-up photos of regular, everyday girls (as well as one or two celebrities!) include titles like "Zits!" "I Hate My _____," "The Perfect Makeup Kit," "Smelling Good/Smelling Bad," "Rock 'n' Roll Babes: Hip Beauty Style," and "Global Beauty." Brown devotes one chapter each to African American, Latin American, and Asian American teen beauty. A thoroughly positive, upbeat style aims to make every girl see and accentuate her own individual beauty. --Emilie Coulter --This text refers to an alternate Paperback edition.

YA-Brown and Iverson give teens basic beauty tips and a large boost to their self-esteem. They set the tone with "makeunders," before-and-after color photos of young people in which a very limited amount of makeup has been applied to highlight their naturalness, and with advice that begins in bold, hot-pink letters: "YOU SHOULD STAND OUT, NOT YOUR MAKEUP." The advice is broken down into lists and bullets and accompanied by diagrams and photos. The authors stress the importance of diet and exercise. There are chapters for African Americans, Latin Americans, Asian Americans, and "Global Beauties." Later chapters give more recommendations for teens who are athletes and those hoping to be models. An index of resources provides ideas on where to buy beauty products, advice on going to a dermatologist, and general thoughts on weight loss. Brown's own line of beauty products are not mentioned in the body of the book, but merely listed as a Web site in the index. Sound, supportive, and conservative beauty advice that teens (and their parents) will love. Jane S. I bought this book, along with makeup products, as a birthday present for a teenager who wanted to learn how to wear makeup. Because I purchased the book from based on the author, Bobbi Brown, and the title "Teenage Beauty: Everything You Need To Look Pretty..." I felt disappointed when I read through the book prior to wrapping it with the eyeshadow, blush and lip gloss I also purchased. Even though I found Bobbi Brown's stories about her journey, beauty and make-up inspiring and

critical for a young person to read- and even an "old person" like me- it definitely lacked the step-by-step instructions on how to apply make-up I was anticipating and counting on for my gift.

This book doesn't just cover make up, but self image, body image issues, etc. Way more in depth about beauty than I thought, with great real life examples ... for instance, a girl who had a few scars from a car accident, the authors own stories, etc. Written in a very warm voice, like advice from a "Cool Aunt". I highly recommend!

Ok so I'm in 10th grade and i really want to become a professional makeup artist.I just started using makeup 6 months ago but fell in love with it.I have read quite a few makeup books, and have gotten the basic technique down and learned enough where I think I'm past the beginners stage.With me being in my middle teens I wanted to find a good book that had pictures of different looks that where wearable for every day life.I found this book on the internet and loved the reviews so much i went ahead and bought it be for checking it out first to see if I really wanted it.I had not read any of Bobbi Browns books at that time so i didn't know what to expect.After ready the first few pages, I couldn't put it down!It was really well written and i differently had a higher self-esteem after reading it!A awesome book for all teenagers to read, even if your in you're 20 or 30 I think you could take something away from this book! ;)~Have a great day!

I purchased this book for my niece, who's growing up into that stage of wearing makeup. She seems to really like the book, so I'm very happy I chose it. The book gives advice on makeup, techniques and teenage life in general. I also like the book because it covered things important to teens...the how to wear a certain style for school, out with friends, etc. Good book.

All of the things I have tried to explain to my daughter is spelled out in this book. It is must have for teenaged girls. Thank you Bobbi Brown.I gave the book to my daughter as a gift. I didn't have to make her read it. She took the book to school and read it!!! We are only allowing her to use lipgloss, mascara, and eyeliner now. We are incrementally adding other make up products. Our primary goal is for our daughter to take care of her skin.This book explains all of the information in detail.

I gave this book to my granddaughter in California and she was delighted to receive it. She later called me to thank me and she says she loves it!

I purchased this book for each of my nieces when they hit 12, and this past Christmas I purchased it for my grand-niece. With the book I also purchased makeup brushes to go with it so she had tools to work with when reading it.

My 15 year old loved the book. She is now more into nailing down what exactly she needs, than just drooling over everything on the beauty section.
