## Customer Reviews

In order for it to be ultimate you'd think it would include how to beat certain types. Information on what level to have your pokemon when fighting. I learned 2 tips. Tap then hold to do the specials

while fighting in gyms. The other is to swipe to dodge certain hits. an online article would give you more information.

**Quick Overview** Just as you can't fairly judge a book by its cover, neither can you always accurately judge a book by its title. Unfortunately, that truth is never more correct than this 24 page booklet.

**Length:** Print, 24 pages.

**Q - Target Audience/Genre** and is it marketed as Nonfiction or Fiction:  
A "Ages 5 to 18 according to the description, but, in my opinion, more like 11 to 15.

**Q - How was this book obtained?**  
A "Bought on while a free download.

**Q - Are there a lot of typos/misspellings, grammatical errors or other editing failures?**  
A "No, the presentation and editing is fine.

**Q - Is this a fast, easy read or is it more of a leisure read?**  
A "Very fast.

**Q - What sort of language does this writer use to amplify the points made?**  
A "Plain English, suitable for all ages.

**Q - What age group is this suitable for?**  
A "I would say it is fine for kids and probably more useful for us older folks trying to figure out how to use Pokemon to get exercise while have a great time. The app is probably intuitive for most youth, so I doubt it will experience many downloads after the free period.

**Q - My biggest pleasure or disappointment?**  
A "No great disappointments, but it could provide a link to a short video (better yet, embed a short video within the booklet, the way Charles River Editors is doing with some of their booklets) so us older guys could get a slightly better grasp on hunting.

**Bottom Line:** As a free download for folks new to Pokemon Go, this is a good resource. AT \$2.99, though, I think that would be a disappointment. I'm rating this at four stars.

Comments regarding your opinion of this book or of my review, whether favorable or unfavorable, are always welcome. If you buy the book based on my review and become disappointed, especially, I do want to know that and I want to understand how I can improve as a book reviewer. Just please be polite. Thank you.

The info in this book is available anywhere. No "secret" info at all. I guess for someone who hasn't played the game yet it's fine but the title is misleading.

It was a pretty well descriptive book. Talked about everything and anything you needed to know about Pokemon go.

Bought for a friend. Downloaded just fine.

This guide is full of information and really breaks down the game. After reading this I feel like I know

everything there is to know. I didn't know the game was so challenging. There are so many layers to it. I thought the game was just a bunch of people running around.

This book was full of helpful facts and tips to play the game. It touched on everything from safety concerns, lures, battles and luck eggs. It's a quick read that will enhance your playing ability if you are new to the game.

The book got some good tips. I was hoping for more information on the game such as more details on more specific aspect of the game. I was hoping for more information.
