Space - Time - Matter: It Is As If A Wall Which Separated Us From Truth Has Collapsed

Synopsis

Hermann Klaus Hugo Weyl, a German mathematician, theoretical physicist, and philosopher. Although mostly working in Zürich, Switzerland and then Princeton, he is connected with the University of Göttingen tradition of mathematics. His research has had vital importance for theoretical physics and purely mathematical disciplines including number theory. One of the most distinguished mathematicians of the twentieth century, and an outstanding member of the Institute for Advanced Study. Weyl printed technical and some general works on logic, symmetry, space, time, matter, philosophy, and the history of mathematics. One of the first to conceive the combination of general relativity and the laws of electromagnetism.

Book Information

Paperback: 506 pages

Publisher: CreateSpace Independent Publishing Platform (June 18, 2017)

Language: English

ISBN-10: 1548188808

ISBN-13: 978-1548188801

Product Dimensions: 6 x 1.3 x 9 inches

Shipping Weight: 1.9 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #1,268,131 in Books (See Top 100 in Books) #64 in Books > Science & Math > Mathematics > Research

Customer Reviews

The book teaches a way to study relativity not as an intellectual jump from Newton to Einstein, but by a method of "analytical continuation" after the concept of "measurement" is cleaned up. One needs to be a little careful about some of the words such as Force. The use is correct but over time, the phrases are changed and we would say the same things differently. It can be confusing at times. I needed to re-read a few times to see things clearly enough to go on. I noticed one good omen. I think the book has the author's signature in it (?). If I am right, I never said it and I do not have it. I know nothing!! Even though old, the book became very useful to me in learning the subject. Thanks
