## Customer Reviews

I think the trail descriptions will be very helpful in choosing where to hike. I do like the way the book is laid out. I checked it out of my local library prior to purchase to see if I would like it. Also the "look inside" feature was very helpful.

In planning for hikes this upcoming summer trying to use this book , 2nd edition, I have found the map references to be totally inaccurate.

Can't wait to try these hikes.
